SUMMARY

(Depends on the company)

EDUCATION

ENSEEIHT – Toulouse INP, Toulouse, France Sep 2026 – Jun 2029 (expected)
Diplôme d'Ingénieur (Master of Engineering equivalent), Digital Sciences

Lycée Henri Wallon, Valenciennes, France Sep 2024 – Jun 2026
Classes Préparatoires aux Grandes Écoles (CPGE), MPI track

- Two-year intensive program in mathematics, physics and computer science; admitted to ENSEEIHT through a national competitive exam.

French Baccalauréat, with Highest Honors (Très Bien) 2024

PROJECTS

Research Project: Cryptography Based on Knot Theory CPGE MPI

- Designed a cryptographic key system based on connected sums of knots and implemented it in Python using Gauss notation.
- Integrated the Regina software (Burton–Ozlen algorithm) for knot recognition and ran complexity experiments.

TECHNICAL SKILLS

Proficient:	Python, C, Ada
Intermediate:	MATLAB
Basic:	OCaml, Excel
Environment:	Windows, Linux (WSL Ubuntu), VS Code

LANGUAGES

French:	Native
English:	Upper-intermediate (CEFR B2)
German:	Elementary (CEFR A2)
Spanish:	Beginner (CEFR A1)

EXTRACURRICULAR ACTIVITIES

Competitive Fencer Since childhood

- 2nd place at the French Team Championships.

Music

Level: C2N1
